Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at http://about.jstor.org/participate-jstor/individuals/early-journal-content.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

INDEX

Acarina, of an Oregon pond, 81; of the genus *Arrhenurus* of the United States, 85; parasitic, from Portuguese West Africa, 68
Africa, Portuguese West, parasitic and noxious invertebrates from, 61
Amplifier, for projection microscope, 37
Apparatus, 211
Arachnida, noxious, from Portuguese West Africa, 68
Arrhenuri of the United States, The, by Ruth Marshall, 85
Arrhenurus, characters of, 85; descriptions of North American species, 88; distribution of, 86; divisions of, 86
Arrhenurus acutus, 92; *americanus*, 126; *americanus* var. *major*, 128; *amplus*, 122; *angustocaudatus*, 116; *apetiolata*, 113; *bicaudatus*, 91; *birgei*, 97; *capillatus*, 101; *compactilis*, 120; *cornicularis*, 112; *crenellatus*, 90; *dentipetiolatus*, 117; *expansus*, 107; *falcicornis*, 121; *fissicornis*, 130; *flabellifer*, 125; *infundibularis*, 93; *krameri*, 109; *laticaudatus*, 95; *laticornis*, 122; *longicaudatus*, 111; *lyriger*, 94; *magnicaudatus*, 123; *major* (var.), 128; *mamillanus*, 98; *manubriator*, 102; *marshalli*, 103; *megalurus*, 105; *montifer*, 96; *ovalis*, 90; *parallelatus*, 107; *pistillatus*, 119; *planus*, 115; *prominulus*, 108; *pseudocaudatus*, 108; *pseudocylindratus*, 101; *rectangularis*, 110; *reflexus*, 117; *rotundus*, 89; *scutulatus*, 93; *scutuliformis*, 100; *semicircularis*, 111; *solifer*, 99; *superior*, 124; *trifoliatus*, 115; *wolcotti*, 118

By-laws, 222

Camera obscura, 10
Cestoda, from Portuguese West Africa, 66
Cestodes, eggs of, 196
Cladocera, of an Oregon pond, 80
Cladorchis watsoni, egg of, 180
Clonorchis endemicus, egg of, 187
Clonorchis sinensis, egg of, 186
Coleoptera, noxious, from Portuguese West Africa, 73
Colonies of *Volvox*, destination of groups of cells in, 155; dwarf, male, 156; fine structure of, 150, 165; inversion of young, 158; nature of, 167; nature of reproductive contents of, 145
Condenser, substage, 26
Condensers, for projection microscope, 25
Constitution, 221
Copepoda, of an Oregon pond, 80
Custodian's report, 220

Data for the Determination of Human Entozoa, II, by Henry B. Ward, 177
Determination of sex, in *Volvox*, 168
Diptera, parasitic and noxious, from Portuguese West Africa, 70
Eggs, of human entozoa, 177
Entozoa, human, data for the determination of, 177; eggs of, 177
Eudorina elegans, *Pleodorina illinoiensis* a variety of, 144

Fasciola gigantea, egg of, 180
Fasciolopsis buskii, egg of, 181
Fasciolopsis rathouisi, egg of, 182
Fauna, microscopic, of an Oregon pond, 75
Further Studies in Volvox, with Descriptions of three New Species, by J. H. Powers, 141

Gage, Simon Henry, Permanent Preparation of Tissues and Organs to show Glycogen, 203; President's Address, The Origin and Development of the Projection Microscope, 5
Glycogen, preparation of tissues and organs to show, 203

Hanausek, T. F., and Winton, A. L., Microscopy of Technical Products, The (review), 213
Heat, removal of, in projection microscope, 28
Hemiptera, noxious, from Portuguese West Africa, 70
Hydra, from an Oregon pond, 79
Hydrachnids, of an Oregon pond, 82; of the genus *Arrhenurus* of the United States, 85
Hymenoptera, noxious, from Portuguese West Africa, 73

Insect larvae, of an Oregon pond, 81
Insecta, noxious, from Portuguese West Africa, 69
Invagination, in *Volvox*, 158
Invertebrates, parasitic or noxious to man, collected in Portuguese West Africa, 61

James, Frank L., sketch of, 207

Kuehne, F. W., sketch of Rudolph Siemon, 210

Lenses, invention and development of, 8
Lepidoptera, noxious, from Portuguese West Africa, 70
Light, arc, 21; Drummond, 20; lime, 18
Lighting, for projection microscope, 16

Macrothrix laticornis, a new variety of, 81
Magic lantern, 10
Marshall, Ruth, The Arrhenuri of the United States, 85
Members, list of, 225
Microscope, origin of name, 7; projection, 5
Microscopy of Technical Products, The, by Hanausek and Winton, review, 213
Minutes, of the twenty-ninth annual meeting, 215
Missouri, Volvox and other forms from pond at Rocheport, 143
Myriapoda, noxious, from Portuguese West Africa, 69

Necrology, 207
Nematoda, from Portuguese West Africa, 66
Nematodes, eggs of, 196
Notes, 211

Objectives, from projection microscope, 34
Observations on the Micro-fauna of an Oregon Pond, by Elda R. Walker, 75
Oculars, for projection microscope, 35
Officers, list of, 3
Oregon. Micro-fauna, of Todd's Pond, Forest Grove, 75
Organs, Preparations of, to show glycogen, 203

Origin and Development of the Projection Microscope, The, President's Address, by Simon Henry Gage, 5
Orthoptera, noxious, from Portuguese West Africa, 69
Ostracoda, of an Oregon pond, 81

Paragonimus kellicotti, egg of, 186
Paragonimus westermanii, egg of, 183
Parasites, from Portuguese West Africa, 61
Permanent Preparations of Tissues and Organs to show Glycogen, by Simon Henry Gage, 203
Pflaum, Magnus, custodian's report, 220
Photomicrography, with projection microscope, 46
Physaloptera caucasica, egg of, 197
Pleodorina californica, from Missouri, 143
Pleodorina illinoiensis, a variety of *Eudorina elegans,* 144
Pond fauna, of Todd's Pond, Forest Grove, Oregon, 75
Powers, J. H., Further Studies in Volvox, with Descriptions of three New Species, 141
Preliminary List of Invertebrates, Parasitic or otherwise Noxious to Man, collected in Portuguese West Africa; 1904-1906, A, by F. Creighton Wellman, 61
President's Address, The Origin and Development of the Projection Microscope, by Simon Henry Gage, 5
Projection, and photomicrography, 46; darkening room in, 40
Projection microscope, amplifier for, 37; blackening, 42; character of, 12; condensers for, 25; darkening room for, 40; drawing with, 42; for opaque objects, 45; lighting, 16; mechanical parts for, 40; names for 5; objectives for, 34; origin and development of, 5; removal of heat of, 28; screen for, 38; use of oculars, 35; water-bath for, 29
Protozoa, of an Oregon pond, 78; parasitic, from Portuguese West Africa, 62

Reproductive cells, in *Volvox,* arrangement of, 153
Review, 213
Rotifers, of an Oregon pond, 79

Schistosoma haematobium, egg of, 179, 188
Schistosoma japonicum, egg of, 189
Schistosoma mansoni, egg of, 192
Screen, for projection microscope, 38
Screen-distance, in projection microscope, 39
Sex-determination, in *Volvox,* 168
Siemon, Rudolph, sketch of, 210
Smith, J. C., treasurer's report, 219
Spencer-Tolles Fund, report of, 220
Sperm-formation, in *Volvox,* 156
Stain, to show glycogen in tissues and organs, 203; Weigert's iron-haematoxylin, 211
Stebbins, James H., Jr., Weigert's Iron-Haematoxylin Stain, 211
Stentor pyriformis, form from Oregon, 78
Subscribers, list of, 232

Temperature, rise in, in water-baths in projection microscope, 33
Tissues, preparations of, to show glycogen, 203
Treasurer's report, 219
Trematoda, from Portuguese West Africa, 66
Trematodes, eggs of, 180

Trichostrongylus instabilis, egg of, 196
Trichostrongylus probolurus, egg of, 197
Trichostrongylus vitrinus, egg of, 197
Triodontophorus deminutus, egg of, 197

United States, Arrhenuri of, 85

Volvox, arrangement of species of, 170; destination of groups of cells in, 155; determination of sex in, 168; differentiation of primary reproductive cells in, 152; hypertrophied reproductive development in, 146; independence of sperm spheres in, 146; invagination in, 158; inversion of young colonies in, 158; mode of sperm-formation in, 156; nature of, 167; sperm-globoid of, 165; stigmas of, 149
Volvox aureus, 148; *globator,* 166; *perglobator,* 162; *spermatosphara,* 142; *weismannia,* 152

Walker, Elda R., Observations on the Micro-fauna of an Oregon Pond, 75
Ward, Henry B., Data for the Determination of Human Entozoa—II, 177
Water-bath, for projection microscope, 29; stage, 30
Watson & Son's New Catalogue, 212
Weigert's Iron-Haematoxylin Stain, by J. H. Stebbins, Jr., 211
Wellman, F. Creighton, A Preliminary List of Invertebrates, Parasitic or otherwise Noxious to Man, collected in Portuguese West Africa: 1904-1906, 61
Worms, of an Oregon pond, 79; from Portuguese West Africa, 66
